PRAGUE INSTITUTE OF MANAGEMENT & TECHNOLOGY

INTERNATIONAL SCIENTIFIC AND PRACTICAL CONFERENCE

SCIENCE, EDUCATION AND INNOVATION IN THE ERA OF DIGITAL TRANSFORMATION AND SUSTAINABLE DEVELOPMENT

20 November 2026

INFORMATION LETTER

Prague Institute of Management & Technology (PIMT, Czech Republic) invites university faculty, doctoral candidates, independent researchers, master's students, practitioners and scholars from all disciplines to participate in the international scientific and practical conference on 20 November 2026 by submitting research papers or conference abstracts.

The conference aims to provide an interdisciplinary forum for discussing new research findings and practical solutions concerning digital transformation in the economy and society, artificial intelligence, quality of education, technological progress, environmental sustainability and human capital.

Organiser	Prague Institute of Management & Technology (PIMT), Prague, Czech Republic
Conference date	20 November 2026
Participation fee	UZS 135,000
Participant receives	Electronic certificate, individual paper link and PDF copy

Main conference research tracks

Track 1. Economics, business, finance and sustainable development

- Digital and green economies, innovation-led development and regional economic policy;
- Banking, insurance, fintech, investment, financial security and risk management;
- Entrepreneurship, marketing, management, labour markets and human capital;
- International trade, logistics, tourism, economic integration and ESG approaches.

Track 2. Artificial intelligence, information technology and engineering

- Artificial intelligence, big data, machine learning and automation;
- Cybersecurity, digital platforms, blockchain and software development;
- Telecommunications, the Internet of Things, robotics, energy and industrial innovation;
- Engineering, transport, construction, smart cities and digital infrastructure.

Track 3. Education, pedagogy, linguistics and philology

- Education quality assessment, international education standards and educational management;
- Digital pedagogy, AI-assisted teaching, inclusive education and lifelong learning;
- Foreign-language teaching, linguistics, translation studies and literary studies;
- Vocational education, competencies, teaching methods and creative pedagogical approaches.

Track 4. Society, law, governance and humanities research

- Public administration, legal reforms, international relations and public policy;
- Sociology, psychology, history, philosophy, culture and communication;
- Digital society, media literacy, ethics, migration and gender studies;
- Anti-corruption measures, compliance, social protection and security.

Track 5. Natural sciences, ecology, medicine and agricultural innovation

- Ecology, climate change, water resources and renewable energy;
- Biology, chemistry, physics, mathematics and applied natural sciences;
- Healthcare, public health, medical technologies and bioinformatics;
- Agriculture, food security, agribusiness and resource-efficient technologies.

Publication and indexing opportunities

Papers and abstracts accepted under the editorial requirements will be published in an electronic conference proceedings volume in PDF format. Each author is expected to receive a separate online link to their work. The materials will be prepared for posting on international open scholarly platforms and for submission to international academic discovery and indexing systems.

Additional opportunity: full research papers exceeding 5 pages may also be recommended for publication in a scientific journal, subject to editorial review and compliance with the journal's requirements. Accepted papers will be published in the journal's electronic issue and submitted to relevant international indexing systems.

Materials provided to participants

- An electronic certificate of participation in the international conference issued in the name of PIMT;
- An individual web link to the published research paper or conference abstract;
- A PDF copy of the paper or abstract and access to the electronic conference proceedings;
- An opportunity for editorial consideration of research papers exceeding 5 pages for journal publication.

Manuscript preparation requirements

IMRAD requirement. All research papers must follow the IMRAD structure (Introduction, Methods, Results and Discussion), followed by separate Conclusions and References sections. Submissions are accepted in Uzbek, Russian or English. Each paper must include a title, the author's full name, affiliation, position, email address, a 100–150-word abstract and 5–7 keywords. Format: Microsoft Word, Times New Roman, 14 pt, 1.5 line spacing, A4 page size and 2 cm margins. Papers considered for journal publication must exceed 5 pages. A writing template is provided on page 3.

Participation fee and submission of materials

The participation fee for one research submission is UZS 135,000 (one hundred and thirty-five thousand Uzbekistani soums). Participants from the Republic of Uzbekistan should send their manuscript file and proof of payment (receipt) to the Telegram administrator @Conf_admin. The final submission deadline will be announced separately by the organising committee.

Important note: publishing on international scholarly platforms facilitates discovery and indexing; however, the timing and final inclusion decision depend on each database's own criteria. Final terms of journal publication are subject to editorial approval.

RESEARCH PAPER TEMPLATE

BASED ON THE IMRAD STRUCTURE

[FULL TITLE OF THE RESEARCH PAPER]

[Author's full name]

[Full institutional affiliation, position, academic degree (if applicable)]

[City, country; email: example@email.com]

ABSTRACT

[100–150 words: briefly state the research aim, methods used, main findings and scientific or practical significance.]

KEYWORDS

[5–7 key terms or phrases, separated by commas.]

1. INTRODUCTION

[Explain the topic's relevance, the research problem, prior studies and the study objective.]

2. METHODS

[Describe the research methods, data sources, sample and steps of analysis.]

3. RESULTS

[Present the main findings with supporting evidence; insert tables and figures if needed.]

4. DISCUSSION

[Interpret the findings, compare them with prior research and discuss limitations.]

5. CONCLUSIONS

[Summarise the conclusions, contribution, practical recommendations and directions for future research.]

REFERENCES

[1. Author's name. Title of work. Publisher or journal. Year. Pages. DOI/URL (if available).]

Note: delete the instructions in square brackets and replace them with your own manuscript text. Expand each section as needed.
